

TENDER ELEGANCE

Beautifully crafted to complement any sophisticated superyacht, this 10.5m Venetian limousine is the latest tender offering from US shipyard Hodgdon Yachts.

Words by Sarah Walker

Designed by Michael Peters Yacht Design, the tender showcases the very latest in technology and craftsmanship and is an undeniably stylish way to transport you and your guests from yacht to shore.

From its dramatic exterior paint scheme and sleek sculpture to its luxurious leather and wood interior, the boat is effortlessly chic. Accommodating up to 11 guests, with two larger VIP seats for the owners, the interior can be customised with a choice of seating styles and fine leather upholstery, as well as joinery, hardware, and lighting. The climate-controlled cabin boasts a refrigerator and high-

definition entertainment system, offering guests a relaxing and comfortable transfer.

The entire salon hardtop rises hydraulically to provide full-height headroom for both ease of boarding and 360° visibility. The windows also fold out electronically to give access via port and starboard.

Made from custom-fabricated stainless steel and featuring a flared bow, curved transom, and the Hodgdon signature flush-fit anchor locker, every detail of this superb boat has been meticulously designed for both form and function. Its mechanical, electrical, and safety systems are second to

none, resulting in a tender with a construction of unmatched quality.

With sports-car handling, the boat can achieve a top speed of 36 knots, and in excess of 30 knots even when fully loaded.

The 10.5m Venetian is the 10th tender from Hodgdon, the world's oldest continuously operated shipyard, now in its 200th year. President Timothy Hodgdon says: "As a superyacht builder ourselves, Hodgdon is uniquely positioned to bring superyacht standards to the tender world. Our commitment is not only to deliver these expected levels of innovation and quality, but to also support our tenders with the strength of a dedicated shipyard." Hodgdon's Venetian series of custom tenders range from 8.5m to 12m. **POA** hodgdonyachts.com 📍
